# Канела Κανέλα Canela Condensed

---

The difference in width between Canela Condensed and Canela is not subtle: designer Miguel Reyes has established clear differentiation between the families, inspired in part by American book covers of the 1960s and 70s. The Cyrillic version has been designed by Moscow-based type designer Ilya Ruderman, and the Greek was designed by Athens-based type designer Panagiotis Haratzopoulos.

Whereas condensation can sometimes bring out an aggressive edge in a serif typeface, Canela Condensed maintains its quiet elegance, exaggerating the vertical lines of the original width without losing the supple curves of the round forms. The italic has a gentle angle of inclination, relying on the cursive shapes in the lowercase to distinguish it from the upright. Like the original, Canela Condensed is only recommended for use at 48pt and above.

Rather than using ambiguous names like “Pro”, “World” or “WGL” for our font files with extended language support, we have devised a simple way to denote which alphabets are supported in complex families like Canela.

**LC**  
Latin + Cyrillic

Font files with LC in the family name support our full standard range of languages that use the Latin alphabet, plus languages that use Cyrillic, including Russian, Ukrainian, Belorussian, Serbian, and Bulgarian.

**LG**  
Latin + Greek

Font files with LG in the family name support our full standard range of languages that use the Latin alphabet, plus monotonic Greek.

**LCG**  
Latin + Cyrillic + Greek

Font files with LCG in the family name support our full standard range of languages that use the Latin, Cyrillic, and Greek alphabets.

ABOUT THE DESIGNERS

**Miguel Reyes** (born 1984), originally from Puebla, Mexico, studied graphic design at Benemérita Universidad Autónoma de Puebla before working as a type designer, graphic designer, and publication designer in Barcelona and Mexico City. He then studied type design at CE Gestalt, School of Design in Mexico City and later attended the Type and Media Masters course at KABK in the Hague. Miguel joined the design staff of Commercial Type in 2013 and became a staff designer that year. His work has been honored by the Latin American Biennial of Typography, the New York Type Directors Club, and the Fine Press Book Association.

**Ilya Ruderman** is a type designer living and working in Moscow, where he did his undergraduate studies at the Moscow State University of Print. His interest in type came from his classes with Alexander Tarbeev, and as his interest developed into a passion he chose to attend the Type and Media course at the Royal Academy of Art (KABK) in The Hague.

After graduating from Type and Media he returned to Moscow to pursue commercial projects for clients such as Men's Health Russia, Yes magazine, Best Life magazine, Big City magazine, Moscow City and Transport system, Perm City and Tele2. Later he worked for several years as the creative director at news agency RIA Novosti. Ruderman has lectured extensively on type and typography, both on his own and together with Valery Golyzhenkov. Ruderman is a curator of the Type & Typography course at the British Higher School of Art and Design and currently is co-founder of two studios: CSTM Fonts and Moscow Design Studio.

**Panagiotis Haratzopoulos** is an Athens-based designer specializing in Greek type design and typography. Born in 1967 in Athens, Panos studied graphic design in Polytechnic College in Athens and then acquired an MA in Graphic Fine Arts from the University of Kent in England. He is specialised in type and multimedia design, and has designed websites and CD-ROMs for large cultural institutions and museums. Together with Yiannis Kouroudis he started Cannibal ([www.fonts.gr](http://www.fonts.gr)) in 1995.

An accomplished type designer, Panos has created original designs for clients in Greece as well as Greek versions of well-known typefaces for a range of typefoundries in Europe and the United States, including Christian Schwartz's Neutraface, Farnham, Amplitude, Stag, and Stag Sans.
