
Lyon Display

While best known for text types, Robert Granjon cut a number of types that, while relatively small by today's standards, were the display sizes of their time. Several of the *Gros-romains* (about 24pt) and a *Gros-canon* italic (about 48pt) from 1564 were particular influences on Lyon Display.

Lyon Display sharpens some aspects of Lyon Text, such as the serifs, while softening others, including the hard corners on the ball terminals and the the lowercase g, and the incoming strokes in the italic lowercase. Lyon Display is a decidedly contemporary take on the Oldstyle tradition, with relatively high contrast and a wide weight range, while still remaining faithful to the genre's conventions: the contrast still is far lower than what it would be in a display Modern, and the Black weight manages to avoid crossing over into self-parody. All styles of Lyon Display include fractions and both lining and oldstyle figures. Italic styles include a set of swash characters.

ABOUT THE DESIGNER

Kai Bernau (born 1978) studied graphic design at the University of Applied Sciences Schwäbisch Gmünd in Germany before relocating to the Netherlands, where he graduated with honors from the Design & Typography BA course of the Royal Academy of Arts (KABK) in The Hague in 2005 with his critically acclaimed Neutral Typeface project. He continued at the KABK's Type and Media Master course where he graduated in 2006. Together with his wife Susana Carvalho, they formed Atelier Carvalho Bernau, a practice that designs printed matter (mainly books), bespoke and retail typefaces, and identity programs. The two have lectured and set workshops at the Faculty of Fine Arts of the University of Lisbon, the Écal in Lausanne, the Typographic Society in Vienna, the Danish School of Media and Journalism's Typoo8 conference, the Arnhem ArtEz design school, the MICA in Baltimore, among others.
